

It's Time for Change!

ELECT

RUSS BLUNDEN

UFCW Local 951 President

You aren't a robot. You shouldn't be treated like one.

No worker wants to be treated like a robot. But an upsetting business trend is doing just that. Too many businesses don't view their employees as people. Instead, employees are a dollar amount, a case-per-hour count or a cost expenditure that hurts their profit margin.

Local 951 should be concerned about business policies and practices that hurt the membership. **But Local 951 leaders don't want to upset businesses when they can simply turn a blind eye to lay offs, benefit cuts, stagnant wages and pension reductions.**

You are worried about these things, and you should be. So should your union — but it isn't. Local 951 leaders want you to believe they are concerned. But why should Local 951 worry about losing a few thousand members when they can simply raise their already high union dues?

You need union leaders who care about you and the issues you face. You need Russ Blunden. Russ Blunden is a member for the members. He understands and shares your concerns. So please vote for Russ Blunden.

Together, we can take back Local 951 and make it our union again.

If you have any questions or concerns, please contact The Campaign to Elect Russ Blunden UFCW Local 951 President
