The Robert G. Potter Union Center: Another Waste of Your Money

Just when you thought your Local 951 leaders couldn't waste any more of the membership's money, they indeed found a way: The Robert G. Potter Union Center (above). Local 951 states on its Web site, "... the [old] Grand Rapids office had too much desk space as Reps stayed out in the field and an aging infrastructure, making new technology (even reliable heating and cooling) very difficult to implement."

But how many union members knew their dues would be used to build a new union hall that many of them will never visit?

And the biggest slap in the members' faces? It's the "Robert G. Potter Union Center," named after the same corrupt Robert Potter who wasted union money for years and did nothing to help the people he was meant to lead.

Your money should be used to help you. Instead, it has been used once again to provide our union leaders with what they want, not with what the membership needs.

In the face of lay offs, stagnant wages and benefits cuts, Local 951 leaders thought a new union hall was more important than your future and livelihood.

Put a stop to this abuse of your money.

Please vote for Russ Blunden.

Together, we can make this our union again.
